(SAFE HANDLING) ACT 2005

NOTICE OF CLASSIFICATION OF A MAJOR HAZARD FACILITY

IN ACCORDANCE with section 30(1) of the *Dangerous Substances (Safe Handling) Act 2005*, and the delegation from the Secretary of the Department of Justice dated 15 January 2010, I, Roy Ormerod, General Manager of Workplace Standards Tasmania, following consultation with the occupier, classify the facilities listed below as a major hazard facility.

Occupier Trading As	Location	*GDA 94 Reference
Nyrstar Hobart Pty Ltd	Lutana	E 526100 N 5257510

I am satisfied that –

- dangerous substances are, or are likely to be, handled at the facility in a greater than prescribed quantity; and
- a dangerous substances emergency at the facility could pose a risk to persons, property or the environment outside the facility.

Therefore, all the requirements of the Act which apply to major hazard facilities and, in particular, Part 4, apply to the abovementioned facilities.

This classification takes effect from the twenty-first day of April 2010.

Environmental Management

ENVIRONMENT PROTECTION AUTHORITY

ENVIRONMENTAL MANAGEMENT AND POLLUTION CONTROL (CONTROLLED WASTE TRACKING) REGULATIONS 2010

I, WARREN GEORGE JONES, being the Director, Environment Protection Authority and acting pursuant to regulation 23(1)(b) of the *Environmental Management and Pollution Control (Controlled Waste Tracking) Regulations 2010* ("the Regulations"), and being satisfied that the granting of the exemption hereunder would not be inconsistent with the objectives of the *Environmental Management and Pollution Control Act 1994*, hereby exempt the following class of persons from the operation of regulation 11 of the Regulations in relation to all controlled wastes subject to the conditions of exemption specified in Schedule 1 –

Persons that were issued on or before 26 March 2010 with an environment protection notice with respect to the collection or transport of controlled waste, in accordance with section 27(6)(a) of the *Environmental Management and Pollution Control Act 1994*, which has not been revoked.

SCHEDULE 1

1. The exemption applies only on the first occasion that the person is registered as a controlled waste handler (a controlled waste transporter or a controlled waste agent) under regulation 6(3)(a) of the Regulations.
2. The exemption applies only where the registration as a controlled waste handler under regulation 6(3)(a) of the Regulations specifies the same waste categories in accordance with regulation 7(1)(b) and the same conditions of waste transport in accordance with regulation 8(1) as those specified in an environment protection notice issued in accordance with section 27(6)(a) of the *Environmental Management and Pollution Control Act 1994*.

Dated the fourteenth day of April 2010.

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.
