EDUCATION

LEARNING SERVICES

Learning Services (South-East)

Bridgewater Learning Federation

Lead Principal, Bridgewater Federation (964429).

Applications Close:—Friday, 27 August 2010.

Salary:—\$120,663 p.a.

Teaching Service (TPS) Award, Band 3, Level 8.

Permanent full-time.

Location:—Region, South.

Context:—In 2007 the Bridgewater High School was destroyed by fire. The Bridgewater and Southern Midlands Task Force (BASMERT) conducted wide ranging community consultation in order to develop recommendations relating to the educational needs of the region, this resulted in transforming the way in which education is provided in the Brighton/Southern Midlands area.

The community learned that research into what makes the best schools shows that such schools invest heavily in four areas: their teachers, their formal and informal partnerships and networks inside and outside the school; their resourcing; and their ethos.

Best practice links all local education provision together to form a joined up education and training pathway for all people in the region. Primary and secondary schools work closely together with teachers sharing the same resources, the same purpose and ethos and the same professional learning. Transition points from one education stage to the next are facilitated by the close relationships between all education providers.

The needs for the area were summarised as being: Quality early childhood development and care for all children, integrated quality pre schooling and early years education, high quality and integrated middle years education, individualised learning programs for secondary students and managed transitions into training and employment and improved adult learning opportunities.

These needs can best be met though a model that consists of several sites throughout the region, each specialising in providing education and other services to a particular age-group and all sharing a single overarching point of governance.

Description of Role:—The role offers an exciting opportunity to be involved in the educational and administrative challenges and achievements of successfully establishing the Bridgewater/Brighton Learning Federation entity. The occupant of this role will lead and direct the educational program and administration of the Bridgewater Federation schools in accordance with appropriate Acts, Regulations and guidelines and manage transition to effective management structures with an emphasis on leadership, building capability, mentoring and coaching. The experience and rewards gained through creating this new model of schooling will be a significant career opportunity.

Essential Requirements:—Teaching qualifications as established by the Tasmanian Industrial Commission in the Teaching Service (Tasmanian Public Sector) Award, 2005.

Current certificate of registration; or provisional registration in accordance with the provisions of the Teachers Registration Act 2000.

The Commissioner has determined that the person nominated for this position is to satisfy a pre-employment check before taking up the appointment, promotion or transfer. The following checks are to be conducted: Conviction check for—crimes of violence, Sex related offences, Serious drug offences.

Desirable Requirements:—Four years or more training as defined in the Teaching Service (Tasmanian Public Sector) Award 2005.

Applicants should forward an Application for Employment form, with a statement addressing the selection criteria, relevant personal details and work history.

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.
