Road Safety

REDUCING RURAL DEFAULT SPEED LIMITS IN TASMANIA

THE Road Safety Advisory Council is considering the issue of safer rural speeds in the development of the Second Action Plan under the Tasmanian Road Safety Strategy.

In accordance with the *Subordinate Legislation Act 1992* a Regulatory Impact Statement (RIS) has been developed on the proposal to reduce default speed limits in Tasmania as follows:

A reduction in the rural default speed limit on sealed rural roads from 100km/h to 90km/h, whilst retaining 100km/h on higher standard rural roads; and

A reduction in the rural default speed limit on unsealed (gravel) roads from 100km/h to 80km/h.

Further details, including a copy of the RIS, can be found at www.rsac.tas.gov.au

Copies of the RIS can also be obtained by writing to Land Transport Safety Policy, GPO Box 936, HOBART, TAS, 7001.

Written submissions should be directed to:

Road Safety Advisory Council,
C/- Department of Infrastructure, Energy and Resources
GPO Box 936
HOBART TAS 7001

Or email: saferspeeds@dier.tas.gov.au

Please provide submissions by 18 February 2011.

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.
