LIVING MARINE RESOURCES MANAGEMENT ACT 1995

Section 94

PUBLIC NOTICE – TOTAL ALLOWABLE CATCH FOR THE ABALONE FISHERY 2011

DEFINITION OF THE PARTS OF THE ABALONE FISHERY AND THE PORTION OF THE TOTAL ALLOWABLE CATCH TO BE TAKEN IN EACH PART IN 2011

I, BRYAN GREEN, Minister administering the *Living Marine Resources Management Act 1995*, acting under section 94 of that Act, hereby:

1. Set the total allowable catch for the entire commercial abalone fishery for the year 2011 at 2,565.5 tonnes.
2. Determine that the parts of the commercial abalone fishery from which the total allowable catch for the year 2011 is to be taken are: I. The eastern blacklip abalone part of the fishery; II. The western blacklip abalone part of the fishery; III. The central western blacklip abalone part of the fishery; IV. The northern blacklip abalone part of the fishery; V. The Bass Strait blacklip abalone part of the fishery; and VI. The greenlip abalone part of the fishery, those parts of the fishery being respectively identified as follows:
 - I. The eastern blacklip abalone part of the fishery is the part of the commercial abalone fishery involving only blacklip abalone in State waters adjacent to the east and south coast of the mainland of Tasmania bounded in the north by an imaginary line starting at the northern side of the mouth of the Great Musselroe River at Musselroe Bay then running due west for 100 metres then following the shore line 100 metres from shore to the northernmost point of Musselroe Point then running due north until its intersection with the line of latitude at 40° 48' 00" South then running due east to the outer limit of State waters, and in the south by the line of longitude 146° 52' 11" East at Whale Head on the south coast of the mainland of Tasmania.
 - II. The western blacklip abalone part of the fishery is the part of the commercial abalone fishery involving only blacklip abalone in State waters adjacent to the west and south coast of the mainland of Tasmania bounded in the north by the line of latitude at 42° 08' 50" South and in the south by the line of longitude at 146° 52' 11" East at Whale Head on the south coast of the mainland of Tasmania.
 - III. The central western blacklip abalone part of the fishery is the part of the commercial abalone fishery involving only blacklip abalone in State waters adjacent to the west coast of the mainland of Tasmania bounded in the north by an imaginary straight line running due west from the mouth of the Arthur River to the outer limit of State waters and in the south by the line of latitude at 42° 08' 50" South.
 - IV. The northern blacklip abalone part of the fishery is the part of the commercial abalone fishery involving only blacklip abalone in State waters adjacent to the north, north west and north east coast of the mainland of Tasmania, and King Island, and those State waters generally north of a line bounded in the east by an imaginary line starting at the northern side of the mouth of the Great Musselroe River at Musselroe Bay then running due west for 100 metres then following the shore line 100 metres from shore to the northernmost

point of Musselroe Point then running due north until intersection with the line of latitude at 40° 48' 00" South then running due east to the outer limit of State waters, and bounded in the west by an imaginary straight line running due west from the mouth of the Arthur River to the outer limit of State waters but excluding those waters within the Bass Strait blacklip abalone part of the fishery.

- V. The Bass Strait blacklip abalone part of the fishery is the part of the commercial abalone fishery involving only blacklip abalone in State waters adjacent to the north coast of Tasmania, the Furneaux Group of islands, and in Bass Strait bounded in the west by the line of longitude 145° 22' 42" East and in the east by an imaginary line beginning where the line of longitude 147° 27' 00" East meets the high-water mark of the north coast of the mainland of Tasmania in Anderson Bay then running due north until its junction with the line of latitude 40° 39' South then due east along that line of latitude to the limit of State waters.
- VI. The greenlip abalone part of the fishery is the part of the commercial abalone fishery involving only greenlip abalone.
3. Determine that the portion of the total allowable catch to be taken from each part of the commercial abalone fishery for the year 2011 is:
 - I. The eastern blacklip abalone part of the fishery – 721 tonnes;
 - II. The western blacklip abalone part of the fishery – 924 tonnes;
 - III. The central western blacklip abalone part of the fishery – 304.5 tonnes
 - IV. The northern blacklip abalone part of the fishery – 402.5 tonnes;
 - V. The Bass Strait blacklip abalone part of the fishery – 70 tonnes; and,
 - VI. The greenlip abalone part of the fishery – 143.5 tonnes.
4. Determine that the amount of abalone which may be taken from each part of the fishery pursuant to each abalone quota unit in the year 2011 is:
 - I. For the eastern blacklip abalone part of the fishery – 206 kilograms;
 - II. For the western blacklip abalone part of the fishery – 264 kilograms;
 - III. For the central western blacklip abalone part of the fishery – 87 kilograms;
 - IV. For the northern blacklip abalone part of the fishery – 115 kilograms;
 - V. For the Bass Strait blacklip abalone part of the fishery – 20 kilograms; and,
 - VI. For the greenlip abalone part of the fishery – 41 kilograms.

Dated 16/11/2010.

BRYAN GREEN MP,
Minister For Primary Industries and Water.
INFORMATION

This notice sets the total allowable catch for the 2011 fishing quota year for the Tasmanian commercial abalone fishery. The notice also defines the parts of the fishery, or zones, and the type and amount of abalone which can be taken from each part/zone.

PARLIAMENTARY STANDING COMMITTEE ON SUBORDINATE LEGISLATION

'Anyone who has problems with, or feels they are adversely affected by, any of the above Regulations can write to the Secretary of the Subordinate Legislation Committee, Legislative Council, Parliament House, Hobart, 7000.'

RUTH FORREST, MLC, Chairperson.

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.
