## Living Marine Resources

### LIVING MARINE RESOURCES MANAGEMENT ACT 1995

#### Fisheries (Abalone) Rules 2009, Rule 9

PUBLIC NOTICE - DATES OF CLOSING OF THE COMMERCIAL  
GREENLIP ABALONE FISHERY FOR STATE WATERS ADJACENT TO  
THE NORTH-EAST COAST OF TASMANIA

I, ROB GOTT, Director (Marine Resources), acting under Rule 9 of the *Fisheries (Abalone) Rules 2009*, and delegated authority under Section 20(1) of the *Living Marine Resources Management Act 1995*, hereby determine that the dates of the closed season for the commercial abalone fishery for the taking of greenlip abalone (*Haliotis laevis*) from State waters adjacent to the north-east coast of Tasmania are as follows:—

1 November 2010 to 31 December 2010, inclusive;

where State waters adjacent to the north-east coast of Tasmania is defined to mean: those State waters adjacent to the north, north-east and east coast of Tasmania east of the line of longitude at 146° 30' 00" East and south of the line of latitude at 40° 40' 00" South.

Dated the twentieth day of October 2010.

ROB GOTT,  
Director Marine Resources.

#### Information

The commercial greenlip abalone fishery in State waters around the north-east coast of Tasmania is being closed for the remainder of the year 2010 to control the total amount of greenlip abalone harvested in that area in the interest of resource sustainability. This closed area relates to commercial fishing for greenlip abalone in fishing blocks 43, 42, 41, 40, 39, 31, 30, and then down the east coast of Tasmania.

# Our conscience is crystal clear.

## Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.

For further information please contact Print Applied Technology or visit [www.fscaustralia.org](http://www.fscaustralia.org)
