Water Management

WATER MANAGEMENT ACT 1999

Section 11 Exemption Order

WATERCOURSE AUTHORITIES WITHIN SPECIFIED IRRIGATION
DISTRICTS

I, BRYAN GREEN, Minister for Primary Industries and Water, acting pursuant to Section 11 of the *Water Management Act 1999* hereby exempt all dam owners located within the following Irrigation Districts:

- (1) River Clyde Irrigation District;
- (2) Cressy Longford Irrigation Water District;
- (3) Lake Leake/Elizabeth/Macquarie Rivers Irrigation District; and
- (4) Tooms Lake/Macquarie River Irrigation District;

who wish to convey stored water via any watercourse located within the irrigation district to a water user within the same Irrigation District from obtaining a Watercourse Authority under Part 6A of this Act, subject to the following conditions:

- (1) the dam owner obtaining the prior approval from the relevant Responsible Water Entity to convey the water.

This exemption takes effect on the day upon which it is gazetted and remains in force for a period of 2 years unless otherwise revoked.

Expressions used in this exemption have the same meaning as in the *Water Management Act 1999*.

BRYAN GREEN, Minister for Primary Industries and Water.

Dated this first day of June 2011.

Information

The purpose of this Order is to exempt owners of dams within an irrigation district, who wish to convey stored water via a watercourse, from having to apply to the Minister for a Watercourse Authority under Part 6A of the *Water Management Act 1999*, where the responsible water entity has been granted approval to administer the authorisation of this activity, and subject to the dam owner obtaining the prior approval from the water entity to convey the water.

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.

For further information please contact Print Applied Technology or visit www.fscaustralia.org
