Asbestos

Minister for Workplace Relations
HOBART

DRAFT ASBESTOS RELATED DISEASES (OCCUPATIONAL EXPOSURE) COMPENSATION BILL

THE Department of Justice invites comment on the draft Asbestos Related Diseases (Occupational Exposure) Compensation Bill.

The proposed legislation will provide statutory compensation to workers with an occupationally caused asbestos related disease, with the objectives to:

- provide a no-fault statutory system that ensures workers with an asbestos related disease have access to statutory compensation;
- overcome the confusion in the current system between the *Workers Compensation Act 1927* and the *Workers Rehabilitation and Compensation Act 1988*;
- provide for workers who have passed retirement age; and
- circumvent the need for workers to access the common law system.

The draft Bill is available at www.wst.tas.gov.au

If you wish to view the paper at a Workplace Standards Tasmania office or arrange alternative access, phone 1300 366 322 (inside Tasmania) or (03) 6233 7657 (outside Tasmania).

Comments on the draft Bill should be forwarded in writing to Workplace Standards Tasmania, PO Box 56, Rosny Park 7018 or via email to wstinfo@justice.tas.gov.au

Comments must be received by 5pm, 8 April 2011.

DAVID O'BYRNE MP, Minister for Workplace Relations.

Living Marine Resources

LIVING MARINE RESOURCES MANAGEMENT ACT 1995

FISHERIES (SCALEFISH MANAGEMENT PLAN) ORDER (No. 1) 2011

I make the following order under section 48A of the *Living Marine Resources Management Act 1995*.

21st March 2011.

BRYAN GREEN,
Minister for Primary Industries and Water.

1. Short title

This Order may be cited as the *Fisheries (Scalefish Management Plan) Order (No. 1) 2011*.

2. Commencement

This Order takes effect on the day on which it is published in the *Gazette*.

3. Rule 58H of Fisheries (Scalefish) Rules 2004 changed

Rule 58H of the *Fisheries (Scalefish) Rules 2004** is changed by omitting from subrule (1) the words "or in the same licensing year".

(Explanatory note)

This order changes that part of management plan for the Scalefish Fishery that relates to the banded morwong fishery so as to remove the limitation of a licence holder being able to hold more than two fishing licences (banded morwong) in the same licensing year. This limitation is an anomaly as the restriction on holding more than two licences at any one time is sufficient to limit unwanted concentration of interest in licences, particularly given there are also restrictions on quota unit holdings within a licensing year (Rule 58I).

Our conscience is crystal clear.

Together we can make a difference.

Print Applied Technology remains ever vigilant in reducing the impact of its operations on the environment, and environmental management within our production facilities is considered a critical aspect of our business.

Our investment in a world class 'Ecoclean' solvent recycling system from Europe has enabled us to recycle all our solvent liquids for reuse, instead of disposing of this material which is traditional industry practice. Waste paper is managed via extraction systems and a compaction unit, capturing and bundling all waste generated during the production cycle which is then collected for recycling, reducing landfill. Vegetable based inks are used where possible on our presses, and green office principles are employed.

Print Applied Technology now adds to these initiatives official certification by the Forest Stewardship Council

(FSC). FSC certification is the "Gold Standard" for eco forestry worldwide, and as a 'Chain of Custody' certificate holder we can now assure our valued customers that selected papers sourced for our operations are from responsibly managed forests.

The use of the highly guarded FSC trademark now also allows our customers to demonstrate their commitment to the growth of responsible forest management. Further to this, we can now share with you the knowledge that areas of natural wealth and endangered wildlife habitat are not being adversely affected as a consequence of our paper sourcing policy.

You too can help to protect our environment, by promoting and using FSC products.
