TASMANIAN FORESTS AGREEMENT INITIAL PROPOSED RESERVE ORDER 2013

Tasmanian Forests Agreement Act 2013
(section 21)

I make the following order under section 21 of the *Tasmanian Forests Agreement Act 2013*.

Dated 1 July 2013.

BRYAN ALEXANDER GREEN
Minister for Energy and Resources

1. Short title

This order may be cited as the *Tasmanian Forests Agreement Initial Proposed Reserve Order 2013*.

2. Commencement

This order takes effect on the day on which its making is notified in the *Gazette*.

3. Interpretation

(1) In this order –

Act means the *Tasmanian Forests Agreement Act 2013*;

Plan 9580 has the same meaning as in Schedule 1 to the Act;

(2) The *Acts Interpretation Act 1931* applies to the interpretation of this order as if the order were by-laws.

4. Land to be made proposed reserves

The lots listed in column 1 of Schedule 1 to this order, being part of the future reserve land, are proposed reserves for the purpose of section 21(1) of the Act.

5. Matters referred to in section 21(2) of Act

For the purpose of paragraph (b) of section 21(2) of the Act, the information referred to in that paragraph, in relation to the land referred to in clause 4, is contained in columns 2, 3, 4 and 5 of Schedule 1 to this order.

Schedule 1 – proposed reserves in the initial proposed reserve order

Clauses 4 and 5

Column 1	Column 2	Column 3	Column 4	Column 5
Lot 1	All that area of land comprising approximately 227 hectares shown as Lot 1 on Annexure 1 to Plan 9580.	<ul style="list-style-type: none"> • The protection and maintenance of the natural and cultural values of the area of land and the sustainable use of the natural resources of that area of land. • the removal of carbon dioxide from the atmosphere by all or any of the following means: <ol style="list-style-type: none"> i) sequestering carbon in trees in native forest; ii) avoiding emissions of greenhouse gas attributable to changed forest management practices including the clearing or harvesting of native forest. 	<ul style="list-style-type: none"> • An area of land predominantly in a natural state. 	Native forest harvesting
Lot 3	All that area of land comprising approximately 10 hectares shown as Lot 3 on Annexure 1 to Plan 9580.	<ul style="list-style-type: none"> • Mineral exploration and the development of mineral deposits in the area of land, and the controlled use of other natural resources of that area of land, while protecting and maintaining the natural and cultural values of that area of land. • the removal of carbon dioxide from the atmosphere by all or any of the following means: <ol style="list-style-type: none"> i) sequestering carbon in trees in native forest; ii) avoiding emissions of greenhouse gas attributable to changed forest management practices including the clearing or harvesting of native forest. 	<ul style="list-style-type: none"> • An area of land – <ol style="list-style-type: none"> (a) with high mineral potential or prospectivity; and (b) predominantly in a natural state. 	Native forest harvesting
Lot 5	All that area of land comprising approximately 12584 hectares shown as Lot 5 (in 2 parts) on Annexure 1 to Plan 9580.	<ul style="list-style-type: none"> • Mineral exploration and the development of mineral deposits in the area of land, and the controlled use of other natural resources of that area of land, while protecting and maintaining the natural and cultural values of that area of land. • the removal of carbon dioxide from the atmosphere by all or any of the following means: <ol style="list-style-type: none"> i) sequestering carbon in trees in native forest; ii) avoiding emissions of greenhouse gas attributable to changed forest management practices including the clearing or harvesting of native forest. 	<ul style="list-style-type: none"> • An area of land – <ol style="list-style-type: none"> (a) with high mineral potential or prospectivity; and (b) predominantly in a natural state. 	Native forest harvesting
Lot 7	All that area of land comprising approximately	<ul style="list-style-type: none"> • Mineral exploration and the development of mineral deposits in the area of land, and the controlled use of 	<ul style="list-style-type: none"> • An area of land – <ol style="list-style-type: none"> (a) with high mineral 	Native forest harvesting
