Water Management

Water Management Act 1999

Section 11 Exemption Order

Cease-to-take flow thresholds in the St Pauls River Management Zone of the South Esk River catchment

I Sarah Courtney, Minister for Primary Industries and Water, acting pursuant to section 11 of the *Water Management Act 1999* (the Act), hereby exempt all licensees with a water allocation authorising the taking of water in the St Pauls River Management Zone in the South Esk River catchment (as shown in Figure 1), from the cease-to-take flow thresholds specified in Table 7 of section 5.1.1 of the South Esk River Catchment Water Management Plan June 2013.

Figure 1. South Esk River Catchment

Persons to whom this exemption applies are subject to the following conditions:

- (1) The taking of water from a watercourse, in the St Pauls River Management Zone other than for stock and domestic purposes through rights under Part 5 of the Act, and under Surety level 1 allocations will not be permitted when the measured flow drops to the thresholds set out in Table 1.

Table I. Monthly cease-to-take flow threshold for the St Pauls River Management Zone in South Esk River catchment (measured at DPIPWVE gauging station St Pauls u/s South Esk River – Station #18311).

Month	Cease-to-take flow threshold (ML/day)
January	2
February	2
March	2
April	2
May	3
June	10
July	22
August	23
September	21
October	8
November	5
December	2

- (2) All other requirements set out in the South Esk River Catchment Water Management Plan June 2013 relating to the cease-to-take flow provision apply.

This exemption takes effect on the day upon which it is gazetted and remains in force for a period of five years unless otherwise revoked.

Expressions used in this exemption have the same meaning as in the Act.

Sarah Courtney
MINISTER FOR PRIMARY INDUSTRIES AND WATER

Dated this 20th Day of June 2018

Information

The purpose of this Order is to exempt licensees taking water in the St Pauls River Management Zone in South Esk River Catchment Water Management Plan area from the requirements set out in Table 7 of the South Esk River Catchment Water Management Plan June 2013. A condition of the exemption is that licensees are subject to an alternative, lower cease-to-take flow threshold as specified in Table I of this Order.

The cease-to-take flow thresholds in the South Esk River Catchment Water Management Plan June 2013 were based on conservative environmental flow assessments. Since the Plan took effect a more detailed review of the winter cease-to-take thresholds for the St Pauls Management Zone has been undertaken, indicating that more water is available during the winter period (May to November inclusive) in this zone. The cease-to-take thresholds for December to April inclusive are the same as those specified in the South Esk River Catchment Water Management Plan June 2013. This exemption takes effect on the day upon which it is gazetted and remains in force for a period of five years unless otherwise revoked.

A separate Exemption Order applies in relation to the cease-to-take thresholds for licensees in the South Esk River and Break O'Day River management zones within the South Esk River Catchment Water Management Plan 2013. This was published in the *Gazette* on 12 July 2017.
