Dangerous Goods

DANGEROUS GOODS (ROAD AND RAIL TRANSPORT) ACT 2010

I, Bradley Weston PARKER, Acting Executive Director, WorkSafe Tasmania, having been appointed a Competent Authority pursuant to Part 3, Division 1, section 11 of the *Dangerous Goods (Road and Transport) Act 2010*, hereby appoint the following as an authorised officer pursuant to section 12(1) of the *Dangerous Goods (Road and Rail Transport) Act 2010*.

- Anthony SCHULTZ

This appointment is not subject to any conditions or restrictions relating to the powers that may be exercised by the authorised officer; or where and in what circumstances these powers may be exercised. The appointment is subject to conditions relating to when these powers may be exercised.

The appointment is conditional on the holder's continued employment with the Department of Justice.

Dated the 23rd day of June 2025.

BRADLEY PARKER, Competent Authority.

Dairy Industry

**FARM DAIRY PREMISES
EFFLUENT MANAGEMENT CODE OF
PRACTICE**

2025

A CODE OF PRACTICE MADE UNDER PART 5 OF
THE DAIRY INDUSTRY ACT 1994 BY
THE TASMANIAN DAIRY INDUSTRY AUTHORITY

P O Box 303 Devonport TAS 7310

Tel.

(03) 6478 4100

www.tdia.tas.gov.au

FOREWORD

A review of the May 2010 Farm Dairy Premises Effluent Management Code of Practice was undertaken following extensive consultation with dairy industry representatives (including dairy farmers) and relevant State authorities during 2024/25. This Code of Practice has been updated to reflect changes in the industry's approach to effluent management since that time.

The Farm Dairy Premises Effluent Management Code of Practice 2025 (the Code) represents a further step towards ensuring that appropriate farm dairy premises effluent management is undertaken and maintained in the State. The adoption of this Code by the Tasmanian Dairy Industry Authority (TDIA) is not intended to substitute or interfere with the role of environmental regulators responsible for enforcing compliance with *Environmental Management and Pollution Control Act 1994* (EMPCA). Rather, it is intended to assist those authorities by reducing the likelihood of dairy effluent presenting as environmental problems.

PURPOSE

The purpose of this Code is to ensure that effluent from a dairy premises is managed in a way which is not likely to have an unacceptable impact on the environment. Dairy farmers, like all members of society, have a duty not to pollute the environment and the effluent from a dairy animal in a premises should not present any greater risk to the environment than the effluent from a dairy animal on pasture.

CONTENT

This Code consists of a statement of the outcomes and specific requirements which must be met by operators of a dairy premises. Attached to the Code is a brief explanation of how enforcement of the Code is managed.

LEGISLATION

This Code is made pursuant to Part 5 of the *Dairy Industry Act 1994* and operators of dairy premises must comply with its requirements. Compliance with this Code should reduce the potential for environmental harm or environmental nuisance as defined by the *Environmental Management and Pollution Control Act 1994* (EMPCA).

ACKNOWLEDGEMENT

This Code was developed by the Tasmanian Dairy Industry Authority (TDIA) in collaboration with the Effluent Management Stakeholder Reference Group, comprising industry representatives and other relevant state authorities. TDIA would like to acknowledge all Tasmanian individuals and organisations, including Tasmanian dairy farmers, who provided feedback during the stakeholder consultation period.

DEFINITIONS

(for the purposes of this Code) the following definitions apply

Artificial Waterbody	A constructed waterway, including a constructed channel, dam or lake
Bund	Watertight wall or embankment designed to prevent liquid or solids entering and/or exiting an area
Calving Pad	A separate area for birthing dairy animals that provides a warmer and drier alternative to the paddock. It facilitates around-the-clock access for observation and assistance of animals, and care of the newborn stock. The area may incorporate subsurface drainage and is typically covered with some absorbent organic form of bedding, such as straw or sawdust.
Contained Housing	An integrated facility for feeding and housing cattle with zero grazing such as a freestall, loose housing or dairy dry lot
Dairy Animal	A domesticated animal that produces milk – <ul style="list-style-type: none"> (a) consumed by humans or animals; or (b) processed for the use of, or consumption by, humans or animals
Dairy Farmer	A dairy producer who engages in dairy primary production for a commercial purpose as interpreted in the <i>Primary Produce Safety (Dairy) Regulations 2024</i>
Dairy Premises	Building premises, outbuildings, contained housing, temporary housing, holding areas

	and equipment associated with animal husbandry and milk harvesting practices, inclusive of feedpads and calving pads
Dairy Premises Effluent	Can include solid, semi-solid, slurry and/or liquid matter emanating from milk spillage, faeces, urine, wastewater from milking, washdown activities and/or cleaning of a dairy premises. It can also include waste feed, bedding, soil and leachate
Effluent Management System	An integrated system designed to manage the dairy premises effluent stream from its point of generation through to its reuse onto land, or off-site export. It typically includes components to contain, treat, store and/or reuse effluent
Effluent Management Plan	A plan, developed by a trained, independent Livestock Effluent Designer, in a form approved by the TDIA that aligns with current industry standards and describes the components, operation and management of the effluent management system
EHO	Environmental Health Officer
EMPCA	<i>Environmental Management and Pollution Control Act 1994</i>
Environmental Harm	As defined in the <i>Environmental Management and Pollution Control Act 1994</i>

Farm Dairy Premises

Effluent Management Code of Practice 2025

Environmental Nuisance	As defined in the <i>Environmental Management and Pollution Control Act 1994</i>
EPA	Environment Protection Authority
EPN	Environment Protection Notice
Feedpad	An area or structure used for the supplementary feeding of livestock
Ground Water	All water below the land surface this is free to move under the influence of gravity
Holding Area	Contained areas where dairy animals are held prior to accessing the dairy or after being milked
Impervious	Not allowing fluids to pass through
Livestock Effluent Designer	A trained, independent service provider who has successfully completed the nationally recognised course <i>Design Livestock Effluent Systems</i> and is listed as such on the Agriculture Victoria website, or equivalent
Nutrient	A substance that provides nourishment essential for the maintenance of life and growth
Pollutant	As defined in the <i>Environmental Management and Pollution Control Act 1994</i>
Pollute	Discharge, emit, deposit or disturb pollutants, or cause or fail to prevent the discharge, emission, depositing, disturbance or escape of pollutants
Regulatory Authority	An independent or governmental body established by legislative act to set

Farm Dairy Premises

Effluent Management Code of Practice 2025

standards in a specific field of activity, or

operations, then to enforce those standards

Sacrificial Area

A section of the farm considered to have little value and often sacrificed for the purposes of effluent distribution

Surface Water

A waterway, any body of water above the ground, including streams, rivers, lakes, wetlands, reservoirs and creeks

TDIA

Tasmanian Dairy Industry Authority

Temporary Housing

Shelters used by pasture-based dairy systems to manage seasonal conditions

OUTCOME 1

Dairy premises effluent must not leave the farm boundaries or enter surface waters or groundwater, unless treated and discharged in a manner approved by the relevant regulatory authorities.

MINIMUM REQUIREMENTS

- 1.1 Dairy premises effluent must not leave the farm boundaries or enter surface waters or groundwater, unless treated and discharged in a manner approved by the relevant regulatory authorities.
- 1.2 Dairy premises effluent must not enter surface waters, except artificial water bodies wholly contained within the farm boundaries.

OUTCOME 2

There must be an appropriately designed, constructed and operated system for the responsible management of dairy premises effluent.

MINIMUM REQUIREMENTS

- 2.1 Effluent management systems are constructed and managed to relevant regulatory standards, do not pollute or pose environmental harm, and reduce the risk of groundwater contamination and runoff.
- 2.2 An Effluent Management Plan must be developed by trained, independent Livestock Effluent Designer for each dairy premises and submitted to the TDIA for review and approval. The dairy farmer must operate in accordance with a plan approved by the TDIA for those premises.
- 2.3 Effluent Management Plans must reflect the effluent management system in use and must be regularly reviewed by the dairy farmer.
- 2.4 A dairy premises where stock is held for extended periods must have a concrete or other impervious base.
- 2.5 The base of a dairy premises and associated management areas must have bunds around the perimeter or are otherwise designed with appropriate drainage so that all effluent is directed to, and contained within, the effluent management system.
- 2.6 Effluent conveyance methods must not pose a risk to surface water, ground water or soil integrity.
- 2.7 Appropriate contingencies must be in place to contain all effluent within the effluent management system, regardless of adverse weather conditions and/or component failures.

OUTCOME 3

Irrigation or distribution of dairy premises effluent is carried out in an environmentally sound manner.

MINIMUM REQUIREMENTS

- 3.1 The effluent application schedule and rates are appropriate to the farm as assessed in the approved Effluent Management Plan.
- 3.2 Effluent must not be distributed to a sacrificial area, or through an open-ended pipe, unless able to be done in an environmentally sound manner.
- 3.3 Effluent irrigation or distribution systems are constructed and managed to relevant regulatory standards, do not pollute or pose environmental harm, and reduce the risk of groundwater contamination and runoff.

ATTACHMENT 1 – This Attachment does not form part of the code.**MANAGEMENT MECHANISM FOR CODE OF PRACTICE****LEGAL ACTION**

This Code of Practice is issued and administered by TDIA under Part 5 of the *Dairy Industry Act 1994*.

Compliance with this Code of Practice is a condition of licence or accreditation for all dairy farmers licensed under the *Dairy Industry Act 1994* or accredited under the *Primary Produce Safety Act 2011* in Tasmania, and licences or accreditations can be suspended or revoked for failure to comply. Compliance will be assessed as part of routine audit inspections, which may be announced or unannounced.

In the event of potential breaches of the Code which may amount to breaches of EMPCA, referral may be made to Municipal Environmental Health Officers (EHO) or the Environment Protection Authority (EPA) who are responsible for administering EMPCA. Various legal options are available under EMPCA, including the issue of an Environment Protection Notice (EPN) on the responsible person concerned whereby:

- The dairy may not be permitted to operate if compliance is not achieved within a specified time frame;
- A charge may be imposed for issue of the notice;
- Ongoing reports of the effluent management system may be required to be prepared by a suitably qualified person. A fee may be charged for each inspection;
- A penalty can be incurred for failure to comply with a requirement of an EPN;
- A person on whom a notice has been served may appeal to the Tasmanian Civil and Administrative Tribunal in relation to the notice.

COMPLAINTS RESOLUTION

Dealing with complaints concerning pollution caused by dairy premises effluent is the role of the local Municipal Council. The EHO/Council Officer on receiving the complaint will decide on the most appropriate course of action to take. Action could involve:

- An inspection to determine the nature of the complaint;
- Contact with the landholder concerned;
- Following inspection, deciding whether the matter needs to be referred to the Environment Protection Authority for assistance or whether legal action is required.
- Contacting TDIA to investigate whether the issue is linked to the effluent management system on farm.

General complaints regarding effluent systems or TDIA's regulation process can be made by:

- telephoning the TDIA on (03) 6478 4100
- emailing enquiries@tdia.tas.gov.au
- online using our "Feedback Form" (www.tdia.tas.gov.au) or,
- in writing and addressed to: Tasmanian Dairy Industry Authority, P.O. Box 303, Devonport TAS 7310.

A complaint may be made either verbally or in writing; we will request further information when that is necessary to understand the issues. All complaints made to the TDIA will be dealt with in a responsive, confidential, and fair manner, and will be managed in accordance with our external complaints handling policy.

FURTHER INFORMATION

TDIA have developed *Dairy Effluent Management Guidelines Tasmania* to provide further information relating to effluent management systems and effluent management plans. The Guidelines can be requested from the TDIA or are available on their website at www.tdia.tas.gov.au

Rules Publication

RULES PUBLICATION ACT 1953

NOTICE OF THE MAKING OF STATUTORY RULES

In accordance with the provisions of the *Rules Publication Act 1953*, notice is given of the making of the following statutory rules:-

Title of Act (if any) under which statutory rules made	Number allotted to statutory rules	Title or subject matter of statutory rules
(1) <i>Animal Welfare Act 1993</i>	S. R. 2025, No. 34	<i>Animal Welfare (Pigs) Regulations 2025</i>
(2) <i>Animal Welfare Act 1993</i>	S. R. 2025, No. 35	<i>Animal Welfare (Transport of Livestock) Regulations 2025</i>
(3) <i>Inland Fisheries Act 1995</i>	S. R. 2025, No. 36	<i>Inland Fisheries (Seasons and Waters) Amendment Order 2025</i>

GENERAL PURPORT OR EFFECT OF THE ABOVEMENTIONED STATUTORY RULES

(1) *Animal Welfare (Pigs) Regulations 2025*

These regulations –

(a) prescribe, for the purposes of the *Animal Welfare Act 1993* –

- (i) requirements for ensuring the health and welfare of pigs in certain circumstances; and
- (ii) matters relating to a Model Code of Practice for the welfare of pigs; and
- (iii) infringement notice offences and the penalties for those infringement notice offences; and

(b) are made consequentially on the expiry of the *Animal Welfare (Pigs) Regulations (No. 2) 2023*.

(2) *Animal Welfare (Transport of Livestock) Regulations 2025*

These regulations prescribe, for the purposes of the *Animal Welfare Act 1993*, transportation requirements for certain species of animal.

(3) *Inland Fisheries (Seasons and Waters) Amendment Order 2025*

This order amends the *Inland Fisheries (Seasons and Waters) Order 1996* to –

- (a) enable acclimatised fish to be taken from Bradys Lake, Lake Binney and Tungatinah Lagoon all year round; and
- (b) remove the restriction on who is permitted to take fish from Plenty River.

Copies of the abovementioned statutory rules may be purchased at The Print Division Tasmania
46 Brisbane Street, Hobart, Phone: 03 6210 9633, Email: parliament@acrodta.com.au

K. WOODWARD Chief Parliamentary Counsel

PARLIAMENTARY STANDING COMMITTEE ON SUBORDINATE LEGISLATION

'Anyone who has problems with, or feels they are adversely affected by, any of the above Regulations can write to the Secretary of the Subordinate Legislation Committee, Legislative Council, Parliament House, Hobart, 7000.'

Promotion Without Advertising

AGENCY: NATURAL RESOURCES AND ENVIRONMENT TASMANIA

It is my intention to request the Head of the State Service to exercise discretion to not advertise the following duties in accordance with section 40 (2) of the *State Service Act 2000* and to promote the following permanent employee:

Name: A Khankeshipour

Duties Assigned: Technical Officer

Description of the Role: The purpose of the role is to provide effective and efficient administrative and technical support to ensure prompt delivery of a quality service in a NATA (National Association of Testing Authorities) accredited laboratory under ISO 17025 to support Tasmanian primary industries, native fauna and animal welfare.

Essential Requirements: Nil

Desirable Requirements:

- A certificate III or IV in Laboratory skills, or an equivalent qualification, relevant to the nature of the work to be undertaken, as provided by either a university, a vocational education organisation or a registered and accredited training provider.
- Experience working in a NATA (National Association of Testing Authorities) ISO 17025 accredited diagnostic laboratory.
- Proficiency with Microsoft applications and Laboratory Information Management System (LIMS) labware.
- Safe Transport of Infectious Substances by Air Course (Shippers Training) Certification.

State Service employees aggrieved by this intention may make application to the Tasmanian Industrial Commission for a review under section 50(1)(b) of the *State Service Act 2000*. Applications for review are to be lodged with the Tasmanian Industrial Commission within 14 days of the publication of this notice in the Tasmanian Government Gazette.

Signed: Jason Jacobi

AGENCY: NATURAL RESOURCES AND ENVIRONMENT TASMANIA

It is my intention to request the Head of the State Service to exercise discretion to not advertise the following duties in accordance with section 40 (2) of the *State Service Act 2000* and to promote the following permanent employee:

Name: S Reid

Duties Assigned: Business Manager

Description of the Role: To oversee and manage corporate strategic priorities relating to financial, budgetary and business improvement opportunities in collaboration with senior managers across the Divisions in NRE Tas.

The role provides financial, budgetary leadership, direction and support to the relevant Division in NRE Tas to drive business improvement, accountability and performance.

Essential Requirements: Pre-employment

The Head of the State Service has determined that the person nominated for this position is to satisfy a pre-employment check before taking up the appointment, promotion, or transfer.

The following check is to be conducted:

- Conviction check for crimes involving dishonesty.

Desirable Requirements:

- Relevant tertiary qualifications in Accounting, Business Finance Management or equivalent.
- Equivalent experience.
- A current motor vehicle driver's licence.

State Service employees aggrieved by this intention may make application to the Tasmanian Industrial Commission for a review under section 50(1)(b) of the *State Service Act 2000*. Applications for review are to be lodged with the Tasmanian Industrial Commission within 14 days of the publication of this notice in the Tasmanian Government Gazette.

Signed: Jason Jacobi

AGENCY: PREMIER AND CABINET

It is my intention to request the Head of the State Service to exercise discretion to not advertise the following duties in accordance with section 40 (2) of the *State Service Act 2000* and to promote the following permanent employee:

Name: K Sawford

Duties Assigned: Manager Employee Relations

Description of the Role: This is a key HR role which provides leadership to HR staff providing support and advice to managers and divisional directors

Essential Requirements: NA

Desirable Requirements: Appropriate tertiary qualifications in Human Resource Management or similar

State Service employees aggrieved by this intention may make application to the Tasmanian Industrial Commission for a review under section 50(1)(b) of the *State Service Act 2000*. Applications for review are to be lodged with the Tasmanian Industrial Commission within 14 days of the publication of this notice in the Tasmanian Government Gazette.

Signed: Kath Morgan-Wicks

AGENCY: EDUCATION, CHILDREN AND YOUNG PEOPLE

It is my intention to request the Head of the State Service to exercise discretion to not advertise the following duties in accordance with section 40 (2) of the *State Service Act 2000* and to promote the following permanent employee:

Name: J Henderson

Duties Assigned: Bus Attendant

Description of the Role: Travel with students on school buses and provide supervision and support for students with disabilities whilst they commute to and from school. Generally, this will be via services aligned with the Transport Assistance Program for Students with Disability, however variations to this may occur.

Essential Requirements: Current Tasmanian Registration to Work with Vulnerable People (Registration Status – Employment)

Desirable Requirements: First Aid Certificate

State Service employees aggrieved by this intention may make application to the Tasmanian Industrial Commission for a review under section 50(1)(b) of the *State Service Act 2000*. Applications for review are to be lodged with the Tasmanian Industrial Commission within 14 days of the publication of this notice in the Tasmanian Government Gazette.

Signed: Ginna Webster

The advertisement features a background image of several cardboard boxes stacked together. Each box is white with the 'acrodata' logo and the website 'www.acrodata.com.au' printed on it. A large, semi-transparent red banner with a white border is positioned across the middle of the image. The banner contains the text 'Specialist Digitisation Services' in white, bold, sans-serif font. Below the banner, on a light grey background, is a block of text in black, bold, sans-serif font. At the bottom of the advertisement is a solid red horizontal bar containing contact information. To the left of this bar is the 'White Ribbon Australia' logo, which consists of a white ribbon icon and the text 'White Ribbon Australia'. To the right of the logo is the text 'Proudly recognised as a White Ribbon accredited workplace' in a smaller, black, sans-serif font.

 **Specialist Digitisation Services**

**Acrodata provides the largest scale digital conversion services
in Tasmania - digitising millions of images every month!**

**Whether it is digitising hard copy business records or other
mediums such as large format plans, micro-film, micro-fiche
or aperture cards, we cater for all requirements.**
