LIVING MARINE RESOURCES MANAGEMENT ACT 1995

Fisheries (Biosecurity) Order 2025

Pursuant to the powers under section 270 of the *Living Marine Resources Management Act 1995* ("the Act") that were delegated to the General Manager (Marine Resources) (position number 702830) by the Minister acting pursuant to section 20(1) of the Act I make the following order:

1. Short title

This order may be cited as the *Fisheries (Biosecurity) Order 2025*.

2. Specification

This order is made –

- (a) in respect of the harmful disease *abalone viral ganglioneuritis*; and
- (b) to implement treatment and testing requirements designed to prevent the introduction of that disease into State waters.

3. Directions issued

- (1) That an abalone processor must, unless otherwise authorised, ensure that no abalone live-holding water is discharged into State waters from any holding premises used under the relevant licence unless that water has-
 - a) been treated using a system capable of achieving, on comparing water immediately prior to entering treatment with water immediately on leaving treatment, a minimum 3 log 10 reduction in total marine heterotrophic bacteria; and
 - b) achieved a discharge concentration value of <3 log 10 (≤ 999 bacterial colony forming units per mL).
- (2) That an abalone processor must, in each of the testing periods-
 - a) cause a water sample to be taken by an agent of an approved service from each holding premises used under the relevant licence; and
 - b) cause the water sample to be tested by an approved laboratory for the discharge concentration value referred to in subclause (1)(b); and
 - c) submit the results of that testing to the Secretary.
- (3) That an abalone processor must allow access to any holding premises used under the relevant licence to any officer of the Department of Natural Resources and Environment Tasmania for the purposes of-
 - a) inspecting the abalone live-holding water treatment system;
 - b) inspecting any abalone held on the premises;
 - c) seizing any suspected diseased abalone for testing; and
 - d) taking a water sample for testing for the discharge concentration value referred to in subclause (1)(b).

4. Date of Effect

This order takes effect on 1 April 2025 and expires 12 months after that day.

5. Interpretation

In this order –

"**abalone**" means fish of the genus *Haliotis*;

"**abalone processor**" means the holder of a fish processing licence that authorises the processing of abalone;

"**approved laboratory**" means a laboratory approved to conduct tests relevant to ascertaining performance related to the standards in subclauses 3(1)(a) and 3(1)(b);

"**approved service**" means a service approved to take samples to be provided for testing by an approved laboratory;

"**Tasmania's biosecurity regions**" means the regions described in Part 1 and depicted in Part 2 of the Schedule to this order;

"**holding premises**" means premises used to hold abalone taken from outside the relevant biosecurity region for those premises and for the avoidance of doubt this includes abalone from land-based marine farming premises;

"**introduction**" includes re-introduction;

"**relevant biosecurity region**", for premises, means, with reference to Tasmania's biosecurity regions, the biosecurity region adjacent to that part of the State's coastline where, or closest to where, those premises are situated;

"**relevant licence**", for an abalone processor, means the fish processing licence that authorises the abalone processor to process abalone;

"**testing periods**" means the following periods:

- (a) October of each calendar year;
- (b) the four week period commencing six weeks before each Chinese New Year.

All coordinates of latitude and longitude specified in this notice are to be determined by reference to the Geocentric Datum of Australia (also known as “the GDA” or “GDA94”) as defined in the *Commonwealth Gazette* No. GN 35, 6 September 1995.

2. Specification

This order is made –

- (a) in respect of the harmful disease *abalone viral ganglioneuritis*; and
- (b) to implement treatment and testing requirements designed to prevent the introduction of that disease into State waters.

3. Directions issued

- (1) That a holder of a marine farming licence authorised for abalone must, unless otherwise authorised, ensure that no water from any part of a facility that holds or has held wild-caught broodstock abalone is discharged into State waters, unless that water has-
 - a) been treated using a system capable of achieving, on comparing water immediately prior to entering treatment with water immediately on leaving treatment, a minimum 3 log 10 reduction in total marine heterotrophic bacteria; and
 - b) achieved a discharge concentration value of <3 log 10 (≤ 999 bacterial colony forming units per mL).
- (2) That a holder of a marine farming licence authorised for abalone must within 14 days prior to receiving wild-caught abalone, and at intervals of 28 days thereafter-
 - a) cause a water sample to be taken from each holding premises used under the relevant licence; and
 - b) cause the water sample to be tested by an approved laboratory for the discharge concentration value referred to in subclause (1)(b); and
 - c) submit the results of that testing to the Secretary as soon as possible and in any case not less than 4 days of the results being released by the approved laboratory.
- (3) That a holder of a marine farming licence authorised for abalone must not, unless otherwise authorised, allow any equipment used in the capture, transport or holding of wild-caught abalone to contact State waters, or other waters of a licence authorised for abalone, unless it has been cleaned and disinfected to remove all traces of abalone and abalone product. Disinfection is to occur using one or more products referred to in APVMA Permit Number PER92725, complying with all label directions and permit conditions.
- (4) That a holder of a marine farming licence authorised for abalone must allow access to any holding premises used under the relevant licence to any officer of the Department of Natural Resources and Environment Tasmania for the purposes of-
 - a) inspecting the abalone live-holding water treatment system;
 - b) inspecting any abalone held on the premises;
